DPL Brain Teaser - 4 Is The Magic Number

Magic Number Ruby Pseudocode:

Basic Output:

```
please input a number or type quit:
10 is 3
3 is 5
5 is 4
and 4 is the magic number
please input another number or type quit:
```

Bonus Output:

- Figure out how to output the word for the number instead
- Example: 10 is three, 3 is five
- There are multiple gems out there to help with this or you can write your own method to do this
